

HANNAH LEVY

New York, NY | Relocation-ready | 407-620-6551 | hlevy1024@gmail.com | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Business-facing data analyst with dual degrees in Statistics and Economics from the University of Virginia, experienced in Python, SQL, R, Tableau, Power BI, regression modeling, dashboard development, and translating complex datasets into strategy, audience, growth, content, and revenue insights. Built analytical projects across sports analytics, economic distress, and public-policy risk, with experience turning messy data into decision tools for business stakeholders.

EDUCATION

University of Virginia, Charlottesville, VA

Aug 2022 - May 2025

- B.S. Statistics & B.A. Economics | GPA: 3.574 | Dean's List all eligible semesters | Leadership: Inter-Sorority Council Wellness Chair

Dickinson College, Carlisle, PA

Aug 2021 - May 2022

- B.S. Mathematics & B.S. Quantitative Economics | GPA: 4.0 | Dean's List, Top 1%, Provost Scholarship Recipient

EXPERIENCE

New York Life Insurance, Financial Advisor — Tyson's Corner, VA

Feb 2026 - Present

- Advise clients and prospects on financial planning, risk management, portfolio strategy, and wealth solutions as part of a competitive advisory development program.
- Translate complex financial and risk concepts into clear recommendations for clients and prospects, strengthening business-facing communication and stakeholder advisory skills.
- Licensed in Life, Health & Annuities; pursuing SIE, Series 7, and Series 63.

1858 Capital Partners, Finance & Data Analytics Intern — Winter Park, FL

May 2023 - Aug 2023

- Conducted market and company analysis using financial modeling, valuation, and comparable-company analysis across healthcare and fintech sectors.
- Built valuation and benchmarking tools to support investment decision-making, market research, and leadership-ready recommendations.

Grit Coffee, Barista & Business Operations Analyst — Charlottesville, VA

Jul 2024 - Jul 2025

- Developed Excel and Tableau dashboards to track labor, sales, and inventory metrics, reducing waste by 15%.
- Analyzed staffing and sales patterns to improve scheduling efficiency and translate operating data into daily business decisions.

PROJECTS

NFL Moneyball Roster Value Model | Python, Streamlit, pandas, nflreadpy, GitHub

Ongoing

- Built a live Streamlit decision dashboard using public NFL data to evaluate roster surplus value, player efficiency, and contract-cost dynamics across all 32 teams from 2021–2025.
- Modeled market inefficiencies by position, cost tier, draft capital, and contract stage, using the Eagles as a case study in sustainable roster construction.
- Added confidence flags, data-quality checks, candidate review, and first-pass backtesting to assess whether model-flagged rookie-contract players outperformed comparable non-flagged players in the following season.

Rising Temperatures & Violence in the U.S. | Capstone

Jan 2025 - May 2025

- Modeled relationships between temperature deviations and crime rates using large datasets, regression analysis, and visualization to deliver policy insights.

County Suicide Rates & Economic Distress Study | Python, pandas, statsmodels

Ongoing

- Built county-level OLS and fixed-effects panel models to test whether suicide rates were better explained by short-term economic shocks or persistent structural county characteristics.
- Used residual analysis to identify high-risk outlier counties and communicate where model results diverged from expected patterns.

SKILLS & CERTIFICATIONS

Technical: Python, SQL, R, Excel, Tableau, Power BI, SAS, MATLAB, Streamlit, pandas, statsmodels

Analytical: Dashboard Development, Data Visualization, Regression Analysis, Econometrics, Predictive Modeling, Forecasting, Business Intelligence, Audience/Content/Revenue Analytics

Business: Stakeholder Communication, Business Analysis, Market Research, Decision Support, Storytelling with Data

Certifications: Life, Health & Annuities License; SIE, Series 7, and Series 63 in progress
